ab ca. 17.45 Uhr ausgedehnter Apéro riche in der Aula
 bis 19.30 Uhr

Jahresbeitrag: mindestens 12 Franken

When I go to school, many special things happen ...

In every morning, I go into the shed and fetch my bicycle. My bicycle is white and has some purple and pink details. I mount it and then I go further on... On the street, I turn to the right side and pedal with my full power. Now I'm so fast (and furious) on the way that I don't know what happens to me. In front of me there is a forest. At first sight, you'd think that this forest is very harmless and recreative. However, on second sight you see the dark side of this forest... Fir trees becloud your sight. In the air, the majestic crows circle. The ground is not dark. The ground is darker than dark. No plant can grow on it. This forest is the desert of Switzerland...

Nevertheless, near the forest, there is a little tiny way where you can drive with your bicycle or you can simply walk on it. The way is full of pebbles. The sound is very special when you drive on it. I cycle along this dangerous way to school. Stop! This is not the end! A typical thing for this type of forest is that it gives some glades. This is not very nice when it's rain buckets, but it's nice refreshment. With turn on my brain, I pedal more to have more speed. On the right side, I see the obedience school for pets. Many dogs stand outside and train with their owner. It looks great but for me this is nothing...

A short moment later I'm out of the forest. It was nice, but now I think it's time for something new... I cycle until a block and then turn left. In front of me a garage. You must be very careful that you don't crash with a car. Otherwise, you'll get a bed in a hospital. Not very nice, you see!

After some more bends, I stand in front of the school. It's 7.15 am. Perfect time to go to the school and have a nice day. At school, I met my friends and talk with them. Have a nice day!

People who were worth my time ...

Now that we all have gathered here, I'd like to take a moment to tell a little story. No, actually it's not quite a story. But it is indeed a little something I need to get out of system before I leave this school.

Well, this goes out to each one of my classmates: thank you so, so much. Hah, I know this is going to sound silly and extremely cheesy, but the more I think about it, the more I know how much it is going to hurt to lose every single one of you. I have had a great time during these years, and I've met lots of amazing people. Those were that kind of people, I knew I could count on. People who were worth my time and those were also the ones I was able to trust. That is indeed a privilege I suppose.

There are just so many humans out there that you can't rely on. I believe, this is just a little part of human nature. Creatures who are evil enough to kill their own kind because of pride or greed can only be human.

But you guys were so understanding and kind. That is why I wish each one of you the best of luck during your upcoming future. Keep your head straight and stay awesome, my friends! You guys rock!
